

HEALTH CARE

ELIZABETH JEKOT, M.D., *Elizabeth Jeklot, M.D. Breast Imaging Center*

Dr. Jekot is CEO of her own Breast Imaging Center, which she founded in 2005. She is a leader among her peers and her center was voted by “Imaging Technology News” as one of the top five most influential women’s centers in the nation. Seven years ago, she was diagnosed with breast cancer, an experience that gave an already compassionate and knowledgeable doctor first-hand familiarity with this disease. A fellow physician stated, “She is not only a technically gifted radiologist; she is the most outstanding example of a patient advocate I have yet to encounter. Her dedication to her profession knows no limit, nor does her compassion for her fellow man.”
